

Authorization for Utility Cost Savings Analysis

We hereby authorize Utility Cost Solution Inc. (UCS) to review and perform an analysis of our (Client) utility bills (electric, gas, water, and/or sewer bills).

Utility Cost Solutions agrees to:

1. Review and analyze our utility bills to verify their accuracy or identify opportunities for savings.
2. Provide us with an outline of all refunds, credits or monthly savings opportunities that are identified in their analysis.
3. Help us initiate or precipitate all refunds, credits or monthly savings which were identified in their analysis.

Client agrees to:

1. Provide Utility Cost Solutions with any utility bill(s) and/or account(s) for which we would like them to analyze and review for savings. If they are successful in identifying and precipitating any savings opportunities related to these bills, we will provide them with or access to these bills monthly.
2. Share 50% of all refunds, credits and/or monthly savings that are precipitated, derived, or realized from Utility Cost Solutions efforts. These shared savings will be made payable to Utility Cost Solutions, net 30 days from the date of each UCS invoice for a term of at least 48 months.

Performance Based:

No fee is due if UCS is unable to find or present savings opportunities from their analysis or from those opportunities that are not implemented by either party.
